CHENNAMALLA.ANJU GUNAKAR

- RPA Developer (UiPath)

Guna.Chennamalla@outlook.com | +91 9502554684

PROFESSIONAL SUMMARY:

- 2.4 Years of IT experience in **Robotic Process Automation** using UiPath.
- Experience in development and deployment of bots using UiPath.
- Created end to end automation solutions for **Poc's** involving feasibility study, development, testing and deployment of solution.
- Good hands-on on **Robotic Enterprise Framework** in UIPATH.
- Hands on experience on automating Web Based Applications and e-business suite applications, Document understanding.
- Good hands-on in **Full-stack development** of web applications using **Django framework**, able to design attractive dashboards for the developed RPA solution.
- Also experienced in development of RPA solution using **Microsoft Power Automate**.
- Can perform basic queries and was able to handle **Oracle SQL** and **MySQL** databases during development.
- Worked with **Oracle's Digital Assistant Platform** and **Microsoft's Power Virtual Agents** platform to develop chatbots for RPA solution.

WORK EXPERIENCE:

Sunera Technologies Pvt. Ltd.

Worked on multiple use cases ranging from desktop, web based to e-business suite and backend automations with databases and tried to grasp as much knowledge as I can and tried to get a complete hands-on with UiPath.

Senior Software Engineer   Jul 2021 - Present

- Worked extensively on automating **Invoice Processing** in **Oracle e-business suite**.
- Designed Uipath workflows using **Robotic Enterprise Framework** (RE- framework).
- Worked effectively on **UiPath document understanding**, pdf automation, email automation, data tables, data validation activities, Orchestrator ML skills.
- Maintained both **Attended** and **Unattended** Robot resources, and provided centralized **Robot logs**, Remote Execution, Monitoring, Scheduling and Work Queues using UiPath Orchestrator.
- Worked on **Power automate** for designing the Invoice Approval sequences.
- Performed different **SQL** queries, executed different types of join statements.
- Developed **reusable components** wherever possible.
- Performed **exception handling** as well as debugging to pave way for robust and efficient bots.
- Created **solution design documents** (SDD) and **User Manual**.
- Worked on **Windows**, Office Applications, **browser**, and **Java Applications**, different **databases**.
- Used Windows **Credential Manager** and **Orchestrator Assets** for maintaining, securing, and retrieving the user credentials.

Software Engineer   Apr 2020 - Jun 2021

- Trained on **Oracle Digital Assistant** (ODA) and explored all its features.
- Designed a Digital Assistant for P2P and O2C cycle using **UiPath Rest Api** Services and Oracle Digital Assistant Platform.

- **Integrated** the designed Digital Assistant with Various environments such as Slack, Microsoft Teams, Website, Android Application using sdk.
- Built conversational bots using **Google's Dialog Flow** and **Microsoft's Power Virtual Agent**.
- Also Worked on Developing RPA solutions using UiPath **state machine** workflows.

Trainee Engineer   **Dec 2019 - Mar 2020**

- Researched on various **RPA** Tools and Selected UiPath for the development of solution.
- Tried to get a complete hands-on with **UiPath** Tool and along with all its features.
- Trained on **Oracle e-business suite** and explored finance modules (AP, AR, GL) to Design a poc for one of the flows in any of those modules.
- Identified **Order to Cash Cycle** and **Procure-to-Pay Cycle** as the use cases for implementing RPA.
- Designed the sequences for **UI Automation** of identified Poc's in **e-business suite** using UiPath tool.

ACHIEVEMENTS And RECOGNITIONS:

- Recognized as the **Star Performer of the year 2021** and was awarded by **Sunera Technologies Private Limited** in the annual summit called SUNGATI.
- I was directly promoted as a Senior Software Engineer from a Trainee Engineer immediately after 1 year of probation period in the 1st organization **Sunera Technologies Private Limited**

SKILLS:

RPA Tools	:	UiPath, Microsoft Power Automate (Desktop & Web).
Chatbot's / Digital Assistants	:	Oracle Digital Assistant (ODA), Microsoft Power Virtual Agents
Programming Languages	:	C-Programming, Python (Basic)
Databases	:	MySQL, Microsoft SQL
Frontend Technologies	:	HTML, CSS, Bootstrap, Material CSS, Chart Js
Backend-Frameworks	:	Django

TRAININGS AND CERTIFICATIONS:

- **UiPath RPA Developer Advanced Diploma** from UiPath Academy.
- **UiPath RPA Developer Foundation Diploma** from UiPath Academy.
- UiPath RPA Solution Architect Diploma from UiPath Academy.
- **Microsoft Power Automate Desktop** Course from Udemy.
- Databases for Developers: Foundations from Oracle Dev Gym.
- **Python and Django Framework for Beginners** from Udemy.
- **Oracle Digital Assistant Platform Solution Engineer Specialist** badge from Oracle.

EDUCATION:

- Bachelor of Technology | Electrical and Electronics Engineering | 2015-2019 | Lendi Institute of Engineering and Technology | 70%
- Intermediate | Math Physics and Chemistry | 2013-2015 | Sri Basara Junior College | 82%
- S.S.C | 2012-2013 | Catherine Public School Bheemili | 8.3 GPA
